This letter is written in reference to **Selam Ashenafi Beyene** who had volunteered in the Summer Youth Volunteers program of the year 2014 at the Young Women's Christian Association in Ethiopia (YWCA). The YWCA, an international membership movement is a non-governmental organization operating in Ethiopia that encourages the active participation of volunteers in its various programs designed to benefit women and girls, and children. Moreover, the program also provided an avenue for young volunteers to develop the notion of leadership and understand the importance of community service.

**Selam**, understanding the importance of education and volunteerism, has dedicated her time and expertise teaching English, Math, and values to marginalized children from the mid July 08 to August 29, 2014, (five times a week for half day).

As a volunteer in the summer tutorial program, **Selam** took an active part in planning lessons, teaching in the class room and in soliciting funds and donating exercise books and pens to the children. She also participated in civic activities like planting trees in the vicinity where she gave the tutorial class. Accordingly she served 116 hours on the summer youth program of the YWCA. She has also shown a sense of commitment and responsibility in carrying out tasks assigned to her. In addition to her many measurable contributions, she receives a high recommendation for her enthusiasm and kindness to all the volunteers and students children.

It was a pleasure having her as a volunteer and I strongly believe that she would be a valuable asset in any capacity.

Yours truly,

ሰላሳ ዘይደላ ሠ/ማርያም  
**Saba Haile W/Mariam**
